

FORTHCOMING SEMINAR

INTERPROFESSIONAL HEALTH EDUCATION

TUESDAY 9TH SEPTEMBER 2008, 12:00 - 1:00PM

A/PROF GILLIAN WEBB

SCHOOL OF PHYSIOTHERAPY
THE UNIVERSITY OF MELBOURNE

In this month's seminar, Associate Professor Gillian Webb will present on Interprofessional Health Education. She will draw on her Universitas 21 Fellowship, during which she examined multidisciplinary teaching and learning in the health professions, as well as evidence from the literature. The seminar is timely, given that the Schools of the Faculty are planning and implementing new curricula, and the session will provide opportunities for discussion.

The MEU Seminar series provides an opportunity for participants to interact with local or visiting speakers with special expertise in education for health professionals. An RSVP is required to assist with room preparation and you are invited to bring your lunch if you wish.

Watch for details of upcoming seminars at www.meu.medicine.unimelb.edu.au.

Associate Professor Webb is the Director of Learning and Teaching in the School of Physiotherapy at the University of Melbourne. She is president of the International Society of Physiotherapy Educators and the Chairperson of the Educators Group of the Australian Physiotherapy Association. Her areas of research interest are in health education and, in particular, clinical education, health practice and international health education.
